Conditional legacy diagnostic — synthetic finite sampling law
Signed x; unknown mass 0.10
Signed Q; unknown mass 0.10
dimensionless
undefined
A
B
C
D
finite sampling mass
strict Q threshold
known exceedance mass
completion outer range
boundary mass
Deterministic synthetic fixture
SAMPLING law; same paired IDs/weights
Samplewise caller-supplied shear ceiling
Fixed-flat comparator; signed branch
Missing sectors retain original mass
F4 / filling fraction / physical depth:
UNAVAILABLE
Actual fit and scientific admission: HOLD
