Defined finite SMICA_FULL source: child-pixel quadrature on exact T26846 support
DIAGNOSTIC; empirical proxy; physical covariance unqualified
finite minus J beta [microK]
retained real coefficient index
|beta|=0.00123
|beta|=0.000615
child-quadrature minus centre increment [microK]
1e−5
retained real coefficient index
|beta|=0.00123
|beta|=0.000615
singular value [microK per beta]
geometric singular value index
child-pixel quadrature
centre
