L02: ell 2/3 tensors from the original Planck common-support estimator
Signed tr(q³)
reflection: T/E even; B odd
Field
T
E
B
Octupole concentration λmax(A)
O(3) invariant
tr(q²A)
O(3) invariant
Normalized triple product h
reflection: T/E odd; B even
Principal Q²/O axes: squared overlap
O(3) invariant; headless axes
Octupole axis: Galactic z squared cosine
fixed-axis orientation; not invariant
