FIBRE-INFO-01 — finite detector experiment; no cosmological detection
Actual effects determine rank
Identifiable internal directions
Calibration known
Common dipole nuisance
Trace
Helicity
x/y/z
Two paths
Balanced ±axes
Same acquired photon counts
Rejection probability
Joint 3-component test
Helicity-z only
Null
x signal
z signal
A specified CP loss channel
Fisher fraction at unpolarized null
Coherence x/y
Helicity z
Dephasing transmission λ
