Geometry-response classifier: synthetic Gaussian law, supplied R36 witnesses
Same scalar curvature, distinct orbits
II witness
VII0 witness
Eigenvalue / u_*^2
Ordered Ricci eigenvalue
50,000 draws per noise level
Frequency
Nearest orbit correct
True family retained
Other family retained
Working noise σ/u_*^2
Guaranteed exclusive compatibility
$\delta - 2(r_\alpha\sigma + \varepsilon)$
Working noise σ/u_*^2
